Reviews

*Great electronic book and valuable one. It really is simplistic but surprises within the fifty percent from the book. Its been printed in an extremely simple way in fact it is merely right after i finished reading this publication by which in fact modified me, change the way i really believe.

A PARENT'S GUIDE TO HIGH-FUNCTIONING AUTISM SPECTRUM DISORDER. SECOND EDITION: HOW TO MEET THE CHALLENGES AND HELP YOUR CHILD THRIVE

Guilford Publications, 2014. Softcover. Book Condition: New. Packed with real-life stories and everyday problem-solving ideas, this book has given many tens of thousands of parents the facts they need about high-functioning autism spectrum disorder (ASD), including Asperger syndrome. The authors are leading experts who describe ways to work with these kids' unique impairments and capabilities so they can grow into happy, self-sufficient adults. Parents learn practical strategies for helping their son or daughter relate more comfortably to peers, learn the rules of appropriate behavior, and succeed in school. The book also discusses what scientists currently know about ASD and how it is diagnosed, as well as what treatments and educational supports have been shown to work. Updated with the latest research, resources, and clinical strategies, the second edition clearly explains the diagnostic changes in DSM-5. "This is a really great book for parents?..It is upbeat, positive, practical, and succeeds in being both jargon free and highly informative.Unlike many books for parents, this is very well referenced, has a good index, and is also full of useful information about relevant websites, newsletters, videotapes and special centers. In short, although marketed as a parents? guide, the book is likely to be equally helpful to clinicians and educators working in this area, providing them with strategies that they themselves can use, as well as a host of practical approaches that they can pass on to parents."? Journal of Child Psychology and Psychiatry (on the first edition) Sally Ozonoff, PhD, is Endowed Professor and Vice Chair for Research in the Department of Psychiatry and the MIND Institute?a national center for the study and treatment of ASD?at the University of California, Davis. Dr. Ozonoff is widely known for her research and teaching in the areas of diagnosis and assessment of ASD, and has an active clinical...
