Columbia University Press, United States, 2012. Paperback. Book Condition: New. 231 x 152 mm. Language: English . Brand New Book. Stories of rape, murder, adultery, and conquest raise crucial issues in the Hebrew Bible, and their interpretation helps societies form their religious and moral beliefs. From the sacrifice of Isaac to the adultery of David, narratives of sin engender vivid analysis and debate, powering the myths that form the basis of the religious covenant, or the relationship between a people and their God. Rereading these stories in their different forms and varying contexts, Alan F. Segal demonstrates the significance of sinning throughout history and today. Drawing on literary and historical theory, as well as research in the social sciences, he explores the motivation for creating sin stories, their prevalence in the Hebrew Bible, and their possible meaning to Israelite readers and listeners. After introducing the basics of his approach and outlining several hermeneutical concepts, Segal conducts seven linked studies of specific narratives, using character and text to clarify problematic terms such as myth, typology, and orality. Following the reappearance and reinterpretation of these narratives in later compositions, he proves their lasting power in the mythology of Israel and the encapsulation of universal, perennially relevant themes. Segal ultimately positions the Hebrew Bible as a foundational moral text and a history book, offering uncommon insights into the dating of biblical events and the intentions of biblical authors.
