Company, on West Housatonic street, rests upon stone abutments which in turn rest upon crib work built of logs. These cribs are decayed, and the bridge is in danger of collapse at any time. We would recommend that new stone abutments be built far enough back upon the banks of the stream to secure a safe foundation. This will widen the water way, and necessitate a new bridge. We would call your attention to the matter, and recommend early action. WATER WORKS. The water works have never been in as good condition as at present. The construction of the new Pontoosuc pipe line has been of advantage to every part of the system in the city. The pressure is more evenly maintained all over the city, and also averages somewhat higher at the city hall. And in most parts of the city a...

Reviews

This written book is great. I am quite late in start reading this one, but better then never. You will not really feel monotony at at any moment of your time (that's what catalogues are for about when you check with me).
