Introduction Conversations are occasions where participants are given the opportunity to give and take by making contributions and by allowing others to take turns. Turn-taking concerns the me and you level of communicative interaction and examines how speakers share the floor in conversation. Every time, there is interaction, the mechanisms of how turns are taken are involved automatically. In conversations where turns between the participants are exchanged smoothly, and where speakers share similar or the same turn-taking patterns, communication is successful and allows the development of a topic. Disturbances in the flow of communication are likely to arise when there is disagreement in the turn-taking systems employed by speakers that may have different assumptions in regards to which linguistic behaviour is appropriate in conversation. Not later than John Gray we know that men are from Mars and women from Venus and it is not later than Deborah Tannen s You Just Don t Understand that we know that men s and women s communicative styles can lead to misunderstanding in cross-sex conversation and to the development of stereotypes such as women talking too much and never getting to the point and men never listening. In Sociolinguistics, gender communication has become a popular field of analysis. Committed linguists, such as Coates (1993), West and Zimmermann (1977) and Leet-Pellegrini (1983) have done extended research on linguistic behaviour of men and women. The findings of their studies form the basis...
