READING ENGELHARDT ESSAYS ON THE THOUGHT OF H. TRISTRAM ENGELHARDT, JR.

Springer. Paperback. Book Condition: New. Paperback. 312 pages. Dimensions: 9.4in. x 6.3in. x 0.8in. Tris request for a leave that interrupted his clinical clerkships, so that he could undertake his graduate studies in Austin. The field, not just Tris, owes Jim Knight a hearty thank you for his decision to approve Tris request, which was unusual, to say the least, in the conservative world of medical education at the time. When he returned to Tulane to complete his medical degree, Tris undertook with Richard Zaner the translation of Alfred Schutz and Thomas Luckmann's 6 The Structures of the Life-World. Tris did this work while on his clinical rotations, including obstetrics and gynecology. In between delivering babies, most of whom were delivered by medical students at New Orleans Charity Hospital, he worked on this translation. Tris once told me that, as a medical student, he had delivered scores of babies alone. I can see him sitting with a patient in the labor area or maybe in the hall, attending to her, monitoring her progress in labor and the fetus status, and translating from German, which is his first language, as well as that of his children. As this translation indicates, Tris believes in texts and scholarship about texts in a way that is decidedly not post-modern. This is also plain to anyone who has read his work. For example, the two editions of The Foundations of Bioethics, whatever else one might think of them, are monuments of scholarship in the histories of philosophy, medicine, theology, and ideas generally, not to mention excellent primers on Texas. These books are packed with references and footnotes. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
