Reviews

This book may be worth purchasing. It typically fails to expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.

Palgrave MacMillan, United Kingdom, 1989. Hardback. Book Condition: New. 1989 ed.. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****.Management control is developing as a vigorous area of academic research. The previous volume by the same authors provided a survey of the area. This second monograph is avowedly critical and constitutes the first sustained critique of management control.;The papers in this collection are all published here for the first time. They are classified under two main headings: theoretical discussions of various aspects of management control and six empirical studies including the glass and coal industries, the accountancy and nursing professions, and treasuryship in local government.;Since the philosophy of the collection revolves around a belief in critique, the volume concludes with two auto-critiques which subject the main papers to scrutiny.;Wai Fong Chua is co-author, with R.M.S.Wilson, of Managerial Accounting - Method and Meaning . Tony Lowe is co-editor of New Perspectives in Management Control , with John Machin. Tony Puxty is an author and editor of several books including Financial Management - Method and Meaning (with J.C.Dodds).
