Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.General Zoology: Investigating the Animal World is an introductory level college biology textbook that provides students with an accessible and engaging look at the fundamentals of zoology. Written for a one-term, undergraduate course of mixed majors and non-majors, this reader-friendly text is concept driven vs. terminology driven. End-of-chapter questions challenge students to think critically and creatively while incorporating science process skills and zoological principles.
